Re: Letter of Support- FieldTurf

Dear Mike:

The purpose of this letter is to express my support for your FieldTurf product. As you know, almost three years ago Peccole Little League installed your turf product in the infield portion of one of the 60-foot baseball field that we use.

We have been extremely satisfied with your product, having used it now for two complete seasons. Over these past two seasons our coaches and players have all expressed their satisfaction for the product as well. Whatever issues may exist with regard to heat have not been evident to us. I think using this product as we have for a baseball infield works particularly well to avoid the heat issue, because the players are not standing on this surface motionless for extended periods of time. I have been especially impressed with how well the product looks like real grass, even today. It has really held a good look to it.

If I can answer any questions or provide you with any additional information, please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read "Glen Stevens", written in a cursive style.

Glen Stevens
