Michael,

Yes everything was completed exactly how we wanted!!! It looks great and I'm sure will look even nicer when the rest of our yard gets back together. The dogs, surprisingly (because I wasn't sure how they would react) seemed to love it. My big dog laid in it all night rolling around and my little guy (who would never go in the grass since he doesn't like to get his feet wet) was all over it too. So they seemed to be very happy with it!
